NOVOSIBIRSK ICBM COMPLEX, USSR

The Novosibirsk ICBM Complex is located in a large bend of the Ob river, about 15 nautical miles (nm) north of Novosibirsk. The terrain is flat and covered principally by secondary growth.

The complex (Figure 1) covers an area approximately 8.0 by 10.5 nm and consists of a complex support facility, a rail-to-road transfer point, and 1 Type IIB, 2 Type IID, and 2 Type IIIA launch sites.

Wide-radius turns and hard-surfaced roads are present throughout the complex; rail service is provided to the complex support facility and the rail-to-road transfer point by a branch of the Novosibirsk-Tayga main line.

There was no evidence of the complex on [REDACTED] 25X1
The complex support facility, Launch Site 1, and the road to Launch Site 2 were visible on [REDACTED] but were not identified until [REDACTED]
